

Environmental Policy of IPS Power Ltd (IPS)

IPS is a construction company providing cable installation, civil engineering works and support services within the power supply industry from low voltage to 400kV in all environments, nationwide.

IPS is committed to:

- Protection of the environment
- Prevention of pollution
- Reduction of non-renewable fuel use
- Waste reduction
- Minimising the environmental impact for the life cycle (including disposal); of physical assets including plant and equipment
- Fulfilling our legal environmental requirements with assistance from industry best practise, Environment Agency guidance and Local Authority requirements
- Fulfilling our clients' environmental requirements
- Implementation and continual improvement of our Environmental Management System in accordance with ISO 14001:2015 to continually improve our environmental performance
- Increased awareness of environmental issues by provision of regular information to site and office teams
- Achieving our environmental objectives and targets

The level of achievement of environmental objectives and targets is reviewed at least annually. Objectives and targets are set relevant to our environmental aspects, risks, opportunities and compliance obligations.

To enable us to fulfil our commitments we shall review this policy; at least annually, if there are changes to legislation that affects our work or if there are any changes to our scope of work or organisation structure.
